

Systems Integration Services

Service Overview

Are you frustrated managing multiple stand-alone software applications?

Let the Information Technology Plant Solutions group help you solve your systems integration problems. From integrating production applications, connecting business systems with the plant floor, to enterprise-wide data sharing, we can provide the solution to fit your specific needs.

Whether your integration needs are in steel, pharmaceuticals, food, beverage, chemical, pulp and paper or discrete manufacturing, the Information Technology Plant Solutions group is standing by, ready to guide you through the complete life cycle of your business needs. Our lifecycle solution services include:

- Consulting
- Implementation
- Integration
- Commissioning
- Custom Development
- Training
- Maintenance
- 24x7 Customer Support
